

Meritor Part

Meritor Parts - Meritor is a premier international supplier that is proudly founded on a one hundred year tradition of service and quality. They concentrate on various modules, integrated systems and components to original machine makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's unique energy and feels that this particular energy contributes to their competitive advantage within the international operations. The company values all their clients and wishes to guarantee their success while anticipating their diverse requirements. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred people, Meritor encourages collaboration and innovation among a team of knowledgeable professionals.

By only employing future focused employees, Meritor strongly thinks these top-caliber people will be able to quickly adapt to changing surroundings and exhibit the commitment and performance considered necessary in order to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides their employees different chances for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, suspension and braking systems designed for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the needs of all their international engineering staff.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated around the world in 19 countries and in 5 different continents.

The supplier development network is particularly situated in order to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within every part of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is also included transactional Green Belts who utilize Six Sigma tools to business processes and apply lean techniques.
