

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each global industry. Transporting industrial goods happens each day on our hectic world. Initially innovated as industrial vehicles during the 1930s in America, lift trucks gained popularity following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread globally.

Initially founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM lift trucks have become a global leader in lift truck manufacturing and have built a solid reputation with the business. TCM began constructing lift truck manufacturing locations outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

With over fifty years of accumulated expertise and technology, TCM has been proudly making several models of industrial trucks, making their models known all around the globe. With an energetic and strong workers, TCM has been able to constantly work towards becoming a future leading material handling company.
