

Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with in excess of 250,000 of those operating in North America. Clark has five major lines of forklifts across the world, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of forklifts, with parts covering more than 120,000 particular components for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts needs supplied by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Internationally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling market.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's recurrent goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for every one of their production facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the system of "Lean Manufacturing" at all of its assembly facilities because this technique is extremely economical and permits minimal use of resources. Developed to guarantee maximum efficiency, this system is designed to find and acknowledge the most effective methods for manufacturing plant stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to perfect the proficiency and brilliance of their products while minimizing costs. The contemporary value engineering program combines innovative product improvement and delivers improved client support and service within the industry.
